About the Authorsxv

Part I: A Care Coordination Blueprint for 21st Century Nurses1

Chapter 1: An Action-Oriented Approach to Care Coordination
for Today's RNs.....3

- The Background for This Blueprint 3
 - Care Coordination: Its Coming of Age 4
 - Care Coordination Now: What Brought Us Here 4
 - Care Coordination Going Forward: Nurses Leading the Way 6
 - Care Coordination and Nursing Today: If Not Us, Who? 7
 - A Blueprint for Moving Forward 8
- The Parts of This Blueprint 9
 - Central and Actionable Issues 9
 - Six Actionable Issues 9
 - Why These Six Issues? 10
 - Framing the Actions 10
- The Blueprint's Audience 12
- Getting into Blueprint Thinking: Some Resources 12
- References 13

Chapter 2: Care Coordination in Health Care Today: The Context
and Framework for the Blueprint15

- Framing Care Coordination: Central to Achieving
U.S. Quality Goals 16
- Defining Care Coordination: Toward a Baseline for
Nursing's Contributions 18
 - The AHRQ Definition 19
 - The NQF Definitions 19
 - A Synthesis of the Definitions 20
 - Defining Care Coordination, Validating Nursing 21
- Six Issues That Will Shape the Future of Nurse Care
Coordination 22
 - Engaging Patients, Families, and Caregivers 23

Demonstrating Competence and Readiness for Care Coordination Practice 23

Optimizing Teams and Teamwork for Care Coordination 23

Using Documentation and Health Information Technology in Care Coordination 24

Measuring Care Coordination 24

Paying for Care Coordination 24

Bringing the Issues Together: Small Actions Leading to Big Differences 25

References 26

Part II: The Blueprint's Six Action Issues..... 29

Action Issue 1: Engaging Patients, Families, and Caregivers in Care Coordination.....31

Understanding Patient Engagement in Care Coordination 31

What Do We Know? 32

Activated Patients as Engaged Patients 33

Patient Engagement in Care Coordination and Nursing 33

What Is Trending? 35

What Can RNs Do? 36

Specific Actions for RNs 36

Summary and Highlights of Action Items 38

References and Resources 40

Action Issue 2: Demonstrating Competence and Readiness for Care Coordination Practice 43

Claiming Professional Competence 43

Competence and Professional Accountability 44

What Do We Know? 44

Care Coordination Competencies for All RNs 45

Care Coordination Competencies for Specific Practice Settings: Ambulatory Care 47

Care Coordination Competencies for Prelicensure Students 47

Specialty Coordination Competencies and Certification 49

What Is Trending? 50

What Can RNs Do? 52

Specific Actions for RNs 52

Summary and Highlights of Action Items 54

References and Resources 55

Action Issue 3: Optimizing Teams and Teamwork for Care Coordination	57
Nurse Care Coordinators and the Health Care Team	57
What Do We Know?	58
Effective Teamwork Necessary for Effective Care Coordination	58
Care Coordination and Teamwork Outcomes Aligned	59
Interprofessional Education and Care Coordination	60
What Is Trending?	61
Nurses on Primary Care Teams	61
The Role of Nurse Care Coordinators on Interprofessional Teams	62
Emerging Team-Based Models for Care Coordination	62
What Can RNs Do?	63
Specific Actions for RNs	64
Summary and Highlights of Action Items	66
References and Resources	67
Action Issue 4: Using Documentation and HIT in Care Coordination	69
Harnessing HIT to Capture and Document Nurse Care Coordination	69
HIT Structures	69
Two HIT Initiatives	70
What Do We Know?	71
Data Sets and Infrastructure for Care Coordination	71
Documentation Standardization and HIT Interoperability	72
HIT Resources Needed for Care Coordination	73
What Is Trending?	73
Availability and Use of EMRs	74
Data Analytics and Decision Support	74
Automating Complex Processes	75
What Can RNs Do?	76
Specific Actions for RNs	76
Summary and Highlights of Action Items	77
References and Resources	79

- Action Issue 5: Measuring Care Coordination81
 - Care Coordination Measures Essential to Demonstrating and Improving Quality 81
 - What Do We Know? 82
 - Quality Measures in Care Coordination 82
 - Three Main Types 82
 - Beyond Quality Improvement 83
 - Different Types of Measures for Different Purposes 84
 - QI and Research Measures in Care Coordination 84
 - Performance Measures in Care Coordination 85
 - The Status of Care Coordination Measurement 87
 - What Is Trending? 88
 - Nurse Involvement with Care Coordination Measures 89
 - Care Coordination Measures: Payment and Public Reporting 89
 - Identifying and Attributing Who Contributes to Outcomes 90
 - What Can RNs Do? 91
 - Specific Actions for RNs 91
 - Summary and Highlights of Action Items 92
 - References and Resources 94
- Action Issue 6: Understanding Payment in Care Coordination..... 95
 - Payment and Reimbursement for Nurse Care Coordination 95
 - What Do We Know? 97
 - Payment for APRNs 97
 - Restrictions on APRN Scope of Practice 98
 - Payment for Registered Nurses 100
 - What Is Trending? 100
 - What Can RNs Do? 101
 - Specific Actions for RNs 102
 - Summary and Highlights of Action Items 103
 - References and Resources 104
- Part III: Designing Your Own Blueprint for Action.....107**
 - The Stage Is Set: RNs, Take Your Places 107
 - RNs Taking Action: Taking Issues into Your Own Hands 110
 - Action Issues and Items: A Recap 110

Action Issue 1. Engaging Patients, Families, and Caregivers in Care Coordination	110
Action Issue 2. Demonstrating Competence and Readiness for Care Coordination	111
Action Issue 3. Optimizing Teams and Teamwork for Care Coordination	111
Action Issue 4. Using Documentation and HIT in Care Coordination	111
Action Issue 5. Measuring Care Coordination	112
Action Issue 6. Paying for Care Coordination	112
Wrapping Up, Looking Forward	113
